RESEARCH PROFESSIONAL

We are looking for one or more highly skilled and motivated individuals to work as full-time research professionals for a period of one to two years. Start date around June 1 to August 15 subject to negotiation. Will work with and be supervised by University of Copenhagen and Insead Professor Morten Bennedsen, Columbia Business School Professor Daniel Wolfenzon and Cornell University Professor Margarita Tsoutsoura. The position is based at the University of Copenhagen, Denmark, but the research professional will also spend time at Columbia Business School and Cornell University.

The ideal candidate should: (i) have a strong quantitative background; (ii) have strong computer skills including programming and familiarity with statistics software such as Stata and SAS; (iii) have the ability to work independently to solve problems; and (iv) have a long-term interest in pursuing research in economics and or finance. Background in economics is a plus, but not necessary – we welcome candidates with strong technical backgrounds who are looking for more exposure to economics and finance.

PRINCIPAL DUTIES & RESPONSIBILITIES:

1. Support ongoing research projects of faculty, compile, manipulate, and analyze data using various search engines and software packages.
2. Obtain and organize information for research from other academic institutions and practitioners.
3. Proofreads and edits citations of funded research reports, working papers, and publications.
4. Maintains effective communication with all members of the faculty and outside institutions.

KNOWLEDGE, SKILLS & ABILITIES:

1. Bachelors degree required.
2. Relevant research experience preferred.
3. Familiarity with statistics software such as Sas and Stata.
4. Familiarity with programming languages such as Python and SQL preferred.
5. Courses in econometrics and/or statistics required.
6. Ability to train others required.
7. Knowledge of research techniques or methods required.
8. Analytical and problem solving skills required.
9. Excellent and professional verbal, written, and presentation skills, as well as organizational skills and attention to detail, required.
10. Strong problem solving skills and ability to handle multiple projects simultaneously are required.
11. Ability to work well independently, as well as with others, and to meet deadlines under pressure is required.
12. Ability to seek out, coordinate, and appropriately disseminate information required.
13. Strong computer skills required.
14. A resume and cover letter are required to be considered for this position.
If interested, please send your CV and cover letter (briefly describing your career/study goals) to:
