1 Introduction

Per the NPPES Data Dissemination Notice, CMS-6060-N, posted on the Federal Register on May 30, 2007, FOIA-disclosable NPPES health care provider data will be provided in a downloadable file format.

1.1 About the Data File

Each NPI record (i.e., the record of an enumerated health care provider) is stored in the file as comma separated values (CSV) in a single row. A new row is created for each NPI record.

Every data value (between the commas) is enclosed within double quotes. For example,

```
"data value 1", "data value 2", "data value 3", ...
```

If the data value itself contains double quotes, these double quotes will be replaced by single quote to avoid confusing them the enclosing double quotes.

For example, if the original data value 1 is **sa**m**'ple da'ta 1** it will be converted to **sa**m**'ple da'ta 1** and stored in the file as depicted below.

```
"sa'm'ple da'ta 1", "data value 2", "data value 3", ...
```

This CSV file can be viewed using a variety of third-party software. Due to large volume of the data and the nature of the file, it is recommended that this file be handled by personnel with technical expertise.

The data file contains the fields identified in the NPPES Data Dissemination Notice and certain sub-fields related to those fields will be disclosed in the downloadable file. The sub-fields are:

1. For Other Provider Identifiers, the downloadable file will include the Issuer (the name of the health plan that issued the Other Provider Identifier), and the State (if furnished, the State of the Medicaid plan when Medicaid is the issuer).
2. For Taxonomy Code, the downloadable file will denote the Primary Taxonomy with the Primary Taxonomy Flag.
3. For the Other Name, the downloadable file will include the Other Name Prefix Text, the Other Name Suffix Text, and the Other Name Credentials text if any of that information was furnished by the provider.

Some health care providers reported their SSNs, IRS ITINs or EINs in sections of the NPI application that contain information that is required to be disclosed under FOIA. For example,

1. Providers who are individuals may have reported SSNs or IRS ITINs in FOIA-disclosable fields (such as in the "Other Provider Identifiers" or "License Number" fields).
2. An incorporated individual, when applying for an NPI for the corporation, may have reported his/her SSN as the EIN of the corporation.

CMS has urged health care providers to review their NPPES FOIA-disclosable data to ensure that it is correct and to remove any inappropriate or sensitive information that they may have reported in any of those fields that are "optional" (i.e., not required to be furnished) and /or replace the inappropriate or sensitive information that they may have reported in required fields with the appropriate information. If health care providers did not remove SSNs, IRS ITINs or EINs from FOIA-disclosable fields, CMS took action to not disclose any SSNs or IRS ITINs that were entered in those fields. CMS also took action to temporarily suppress reported EINs, even though they are disclosable under FOIA, because providers reported SSNs in the EIN field. After April 21, 2008, CMS will mask SSNs, IRS ITINs, and EINs when these numbers are entered in the Other Provider Identifier Number and License Number fields as follows: SSNs to "\$\$\$\$\$\$\$\$", IRS ITINs to "*****", and EINs to "===== ". This action also includes

the continued suppression of the EINs and the suppression of the Subpart Parent Organization TINs of all Organizations in the downloadable file. CMS expects to lift the suppression of EINs and Parent Organization TINs in the future.

1.2 Monthly Data File

Each month, a file will be available for download. This file will contain all of the FOIA-disclosable active provider data in NPPES. This file will replace the file provided the previous month and will contain:

1. FOIA-disclosable NPPES health care provider information for health care providers.
2. Updates and changes to the FOIA-disclosable NPPES health care provider information of enumerated health care providers.

A new file will be available for download 30 days after the availability of the initial file, and each month thereafter.

1.3 Contents of the Download Bundle

This data file is provided in a ZIP archive to compress the size and facilitate easier downloading. The contents of this ZIP file are listed below:

1. Data File – this is the file containing the FOIA-disclosable NPPES provider data.
2. Header File – this file contains a comma separated list of the column headers for the Data file.
3. Data Dissemination File - Code Value document – this document provides the descriptions of the various reference codes used in the Data file.
4. This document (Data Dissemination File - Readme) is also part of the ZIP archive.

2 Data File Layout

Each line in the data file represents an NPI record. The following is the list of the column headers in the order as present in the data file.
